**Subject:** John - Regarding your voicemail seeking a meeting -

John,

In a voicemail yesterday you suggested meeting with us here to discuss Region 1's approach to nutrient criteria and permitting. At this time we do not see a value in meeting. We have had several discussions with Region 1 about their approach for interpreting narrative WQ criteria and developing limits to achieve narrative criteria. Based on these discussions, and the explanations provided in permit records, we understand and support the Region's efforts.

Thank you for your interest.
